HIGHLIGHTS

Current funds revenues for institutions of higher education totaled $28.8 billion for fiscal year 1972-73, a 9.1-percent increase over $26.4 billion in fiscal year 1971-72.

Publicly controlled institutions continued to report an increasing share of total revenues. In 1972-73, revenues for publicly controlled institutions totaled $18.9 billion, or 65.8 percent of the total. This was a 10.0-percent increase over the $17.2 billion received in 1971-72 when the public sector accounted for 65.2 percent of all revenues.

Privately controlled institutions reported nearly $9.9 billion in current funds revenues in 1972-73, a 7.3-percent increase over the nearly $9.2 billion received the year before.

Governmental appropriations were the source of greatest revenues. The total was nearly $9.6 billion in 1972-73, of which State governments provided almost $7.8 billion, or 81.1 percent of the total governmental appropriations.

Student tuition and fees ranked second as a source of revenues to institutions of higher education. These revenues rose 7.5 percent to $6.0 billion.

Current funds expenditures by all institutions of higher education rose at a faster pace than did total enrollments. Expenditures increased 9.4 percent to $28.1 billion in 1972-73, while enrollments increased only 3.0 percent.

The largest expenditures of current funds were for instruction and departmental research. Of the $28.1 billion of current funds expenditures in 1972-73, $9.3 billion (33.1 percent) were expended on instruction and departmental research.

Average expenditures per student (EPS) for all institutions of higher education went up $176 from the 1971-72 average of $2,850 to $3,026 in 1972-73. However, when adjusted for inflation, expenditures per student in constant dollars increased by $63 from $2,963 in 1971-72 to $3,026 in 1972-73.

EPS averages in 1972-73 ranged from a high of $6,768 for private universities to a low of $1,126 for public 2-year colleges.

FOREWORD

This publication provides State and national totals of various financial data acquired from institutions of higher education in the questionnaire "Financial Statistics of Institutions of Higher Education" (OE Form 2300-4) distributed in 1973 as a component of the eighth annual Higher Education General Information Survey (HEGIS). Seeking data for 1972-73, the questionnaire acquired information on current funds revenues and expenditures, physical plant assets, indebtedness on physical plant, and the value and earnings of endowments. This publication is limited to data on current funds revenues and expenditures: a separate publication will deal with property-related data.

Data contained within this report are presented in charts, summary tables, and two sets of basic tables. The basic tables display revenues and expenditures by control and level of institution and by State or other area. The first set of basic tables aggregates all universities with their 4-year and 2-year branches and all other 4-year institutions with their 2-year branches; 2-year institutions not connected with a higher level institution are grouped separately. The method of aggregation utilized in this first set of basic tables is the same as that used in previous publications of financial statistics. The second set of basic tables employs a new method of aggregation wherein only the university-level institutions are aggregated under the heading "Universities." Four-year branches of universities and other 4-year institutions are aggregated as "Other 4-year institutions," and 2-year branches are combined with independent 2-year colleges and presented as "2-year institutions."

A small number of institutions did not respond to the survey. (See appendix E for a list of nonrespondents.) For these institutions, data were imputed so that the totals and subtotals represent all institutions including nonrespondents. (See appendix A, Methodology.)

So many people contributed to this publication that it is impossible to credit them all by name. Mention must be made, however, of the contributions of Ruth J. Page, who prepared and organized the statistical materials.

We extend our sincere appreciation to the more than 3,000 business officers and other officials of those institutions and State agencies who assisted in development of the survey. Special thanks are due to the officers in the universities and colleges who undertook the responsibility for completing and returning questionnaires.

SUMMARY

Current funds revenues and expenditures of institutions of higher education continued an increasing trend in 1972-73. Revenues increased 9.1 percent, from the 1971-72 total of $26.4 billion to $28.8 billion for 1972-73; expenditures increased 9.4 percent for this period, from $25.7 billion to $28.1 billion. (See tables A and B.) From 1970-71 to 1971-72, revenues and expenditures had increased 9.9 percent and 9.4 percent, respectively; from 1969-70 to 1970-71, 11.0 percent and 11.1 percent, respectively.

The rates of increase for revenues and expenditures exceeded those for enrollments (up 3.0 percent) and inflation 1/ (up 4.0 percent). The result was an increase in funds per student from 1971-72 to 1972-73. (See table C.)

The same situation may be observed in the 3-year period from 1969-70 to 1972-73. Current funds revenues and expenditures rose 33.1 percent and 33.0 percent, respectively--more than double the 15.3-percent growth in enrollment and the 13.3 percent inflation. Even when the dollar amounts are adjusted for inflation and then divided by the enrollments, the revenues per student and expenditures per student are larger in 1972-73 than they were in 1969-70.

Summaries of the sources of revenues and functions of expenditures in 1972-73 are shown in charts 1 and 2.

Current Funds Revenues

Current funds revenues for all institutions of higher education increased 9.1 percent, from $26.4 billion in 1971-72 to $28.8 billion in 1972-73. In the latter year, the publicly controlled institutions reported revenues of $18.9 billion (65.7 percent of the total)--a 10.0-percent increase over the $17.2 billion received in 1971-72. Current funds revenues for private institutions increased 7.3 percent in 1972-73--from nearly $9.2 billion in 1971-72 to nearly $9.9 billion. Although revenues for private institutions increased in 1972-73, their percentage of total revenues dropped very slightly from 34.8 percent in 1971-72 to 34.2 percent in 1972-73. This was at least partially due to a slower rate of increase in enrollments for private than for public institutions--0.2 percent and 3.9 percent, respectively. (See tables A and C.)

1/ As measured by Consumer Price Index. The monthly indexes were averaged on a July-to-June basis to correspond with the school year.

Revenues for private universities and other private 4-year institutions increased 6.1 percent to nearly $4.8 billion and 8.8 percent to $4.8 billion, respectively. The enrollments for private universities decreased 0.2 percent, while other private 4-year schools increased 1.0 percent for 1972-73. Revenues for private 2-year colleges increased 2.5 percent to $225 million; at the same time, enrollments decreased 5.9 percent.

Public universities continued to report the largest share of current funds revenues of any level of institution in 1972-73. Their revenues of nearly $10.6 billion represented a 7.5-percent increase over the 1971-72 figure of $9.8 billion. The revenues of other public 4-year institutions went up 11.6 percent to $5.3 billion. However, 2-year public colleges reported the greatest percentage increase in revenues for 1972-73. Revenues for these schools rose 16.7 percent--from $2.6 billion to nearly $3.1 billion, while enrollments in public 2-year colleges increased 7.9 percent.

Sources of Revenues

For all institutions, the source of revenues was governmental appropriations 2/ (33.2 percent), totaling nearly $9.6 billion in 1972-73. Of this amount, State government appropriations was reported to have provided nearly $7.8 billion, or 81.1 percent of governmental appropriations. This represented an 11.1-percent increase over the nearly $7.0 billion provided the year before. Local government appropriations totaled $1.0 billion, or 14.2 percent more than the nearly $671 million reported in 1971-72. (See basic tables 1 and 2.)

Student tuition and fees ranked second as a source of revenues for colleges and universities. These revenues rose 7.5 percent to $6.0 billion (21.0 percent of all current funds revenues in 1972-73), as a result of the 3.0-percent larger enrollments and higher student charges.

Gross receipts from housing and food services ($2.1 billion) and from other auxiliary enterprises--such as student stores and intercollegiate athletics--($1.4 billion) ranked third and fifth, respectively, as sources of current funds. Combined revenues from auxiliary enterprises represented 12.0 percent of the total current funds revenues.

Sponsored research 3/--the fourth largest money source--furnished nearly 7.1 percent of all current funds revenues. Sponsored research funds in 1972-73 amounted to $2.0 billion (a 5.7-percent increase over the preceding fiscal year), of which the Federal government supplied nearly $1.7 billion.

2/ Includes all unrestricted funds received from governmental sources that were expendable for educational and general purposes.

3/ Revenues received from outside organizations for specific research projects undertaken in accordance with contracts or written agreements.

Private gifts and endowment income were smaller sources of current funds for educational and general purposes. Private gifts totaled $823 million 4/, or 2.8 percent of total current funds revenues, an increase of 7.6 percent over the preceding fiscal year's total of almost $766 million. Endowment income was an even smaller source of funds in 1972-73--$515 million or 1.8 percent of total revenues and an increase of 7.1 percent over the preceding year's figure of nearly $481 million.

The five largest sources of current funds revenues for publicly controlled institutions were as follows: (1) governmental appropriations (nearly $9.3 billion, or 49.0 percent of the total revenues); (2) student tuition and fees ($2.5 billion, or 13.3 percent); (3) sponsored research ($1.2 billion, or 6.4 percent); (4) housing and food services ($1.1 billion, or 6.0 percent); and (5) other auxiliary enterprises (nearly $1.0 billion, or 5.2 percent).

For private institutions, however, the pattern differed with respect to the proportion of total current funds revenues that each source provided. The five largest sources of current funds for private institutions--in decreasing order of size--were as follows:

Student tuition and fees, the largest single source, provided $3.5 billion, or 35.7 percent of the nearly $9.9 billion total revenues. The 7.2-percent increase in tuition and fees revenues over the preceding year indicated that private institutions raised their charges to the student appreciably, since enrollments during the same period increased only 0.2 percent.

Gross revenues from housing and food services totaled nearly $916 million, or 9.3 percent of the total current funds revenues.

Revenues for sponsored research totaled nearly $834 million, or 8.4 percent of total current funds revenues.

Private gifts, totaled $705 million in 1972-73, or 7.2 percent of total revenues. Gifts were 4.6 percent more than the 1971-72 total of nearly $675 million.

Other service programs, which included Federally Funded Research and Development Centers operated by institutions of higher education, totaled nearly $607 million, or 6.2 percent of total revenues.

Current Funds Expenditures

Current funds expenditures for all institutions of higher education increased 9.4 percent, from $25.7 billion in 1971-72 to over $28.1 billion in 1972-73. Expenditures by publicly controlled institutions were $18.3 billion, or 65.2 percent of all institutions' expenditures. This was $1.7 billion more than in the preceding fiscal year and represented an increase of 10.5 percent.

4/ Includes bequests and the estimated value of contributed services; excludes private funds received for sponsored research, other sponsored programs and student aid grants.

In 1972-73, privately controlled institutions expended nearly $9.8 billion, or nearly $70 million less than they reported in revenues. In 1971-72, revenues exceeded expenditures by $79 million, but in the preceding year private institutions had spent $26 million more than they had received. Expenditures for these schools increased 7.5 percent in 1972-73, or nearly $684 million over the preceding year's total of $9.1 billion.

Current funds expenditures exceeded current funds revenues at private universities in 1972-73. All other levels of public and private institutions expended slightly less than they received. In the preceding year, current funds revenues had exceeded current funds expenditures at all levels of institutions.

Functions of Expenditures

In 1972-73, all institutions reported that the largest portion of current expenditures had gone for instruction and departmental research. These expenditures were $9.3 billion 5/ (33.1 percent of total current funds expenditures)--an increase of nearly $810 million (9.5 percent) over 1971-72, when such expenditures represented 33.0 percent of the total.

Expenditures of the executive and administrative offices and those for general institutional expense (called "other educational and general expenditures") were nearly $3.8 billion in 1972-73, or 13.3 percent of the total. This second largest area of expenditures increased 11.2 percent over the nearly $3.4 billion expended the previous year.

The third largest area--physical plant maintenance and operation--expended nearly $2.2 billion--an increase of 11.2 percent over the 1971-72 figure of $1.9 billion.

Sponsored research--the fourth largest area of current funds expenditures--totaled $2.0 billion for 1972-73; this was nearly $8 million less than revenues for the same period.

Housing and food services expenditures--the fifth largest area--were $1.9 billion, $153 million less than revenues.

The five largest items of expenditures for publicly controlled institutions were in the same sequence as those listed above for all institutions.

For privately controlled institutions, however, the five largest categories of expenditures were instruction and departmental research, other educational and general, housing and food services, sponsored research, and physical plant maintenance and operation, in that order.

The total current funds expenditures of $28.1 billion included an estimated $681 million that was actually for physical plant assets.

5/ Includes teachers' salaries and other expenses directly attributable to the cost of instruction; excludes sponsored research expenditures.

Expenditures per Student

Expenditures per student (EPS) were computed to indicate trends in the relationship between enrollments and current funds expenditures. These EPS averages were derived by dividing current funds expenditures data by enrollment data. 6/ This was done for two fiscal years--1971-72 and 1972-73--in actual and constant dollars, and the increase in EPS was noted. (See table C.)

The average EPS for all institutions in 1972-73 was $3,026. The comparable figure for 1971-72 was $2,850, $176 less than in 1972-73. However, if the expenditures are adjusted for inflation, and stated in constant 1972-73 dollars, the EPS in 1971-72 becomes $2,963 or $63 less than in 1972-73.

As private institutions had a greater contrast between their increased expenditures and their relatively constant enrollments than did public institutions, their EPS averages increased more than did those of publicly controlled institutions. From 1971-72 to 1972-73, private institutions increased their total current funds expenditures 7.5 percent, while total enrollment increased 0.2 percent. For public institutions, however, expenditures went up 10.4 percent and enrollments increased 3.9 percent. The EPS average for publicly controlled institutions increased $152 from $2,423 in 1971-72 to $2,575 in 1972-73. In the same period, the average EPS of private institutions rose $305, from $4,198 to $4,503. Private universities had the highest EPS ($6,768) 7/; public universities the next highest; while public 2-year colleges registered the lowest ($1,126).

6/ Total enrollment data were used; they include all degree-credit and non-degree-credit students. Data used were published in Fall Enrollment in Higher Education, 1972, U.S. Department of Health, Education, and Welfare, Education Division, Washington, D.C.: U.S. Government Printing Office, 1974, p. 1.

7/ U.S. Service Schools actually had the highest EPS ($16,253), but they were included in the statistics for publicly controlled other 4-year institutions.

APPENDIX A

METHODOLOGY

The survey form "Financial Statistics of Institutions of Higher Education," OE 2300-4, was part of the Higher Education General Information Survey package for 1973. A copy of the survey form appears as appendix F.

The total population of inquiry was 2,947 higher education institutions, branches, and campuses. Again this year, as before, some institutions were unable to provide financial data for each campus. Completed questionnaires were available for 2,796 institutions of the 2,947 surveyed--a response rate of 94.9 percent. The population of inquiry and the numbers of respondents and nonrespondents, by level of institution, by control, and by region and State, are shown in appendixes B, C, and D, respectively. The institutions that failed to respond or to provide adequate data are listed in appendix E.

One of two methods was used to adjust for nonresponse, depending on whether an institution's data were available for a previous or succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1973.

If no other year's data were available for an institution, peer instutution data for fiscal year 1973 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of institution, and enrollment size. Wherever possible, matches were also made with regard to institutional control.

OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1973

INSTRUCTIONS AND DEFINITIONS

GENERAL

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

The definitions and instructions used here are compatible with those in **College and University Business Administration, Revised Edition,** published by the American Council on Education, One Dupont Circle, Washington, D.C. 20036.

Please attach supplemental information, comments, etc., on a separate sheet.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at *(202)* 962-7301, in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included *(e.g., State schools should report or estimate the value of physical plant even though records are maintained by a State agency).*

Exclude agency funds, i.e., funds handled by the institution in a custodial capacity only *(e.g., funds for student organizations).*

All data reported should be whole dollars only--omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, ATTENTION: Room 2164-HEOIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, **not later than October 31, 1973.**

NOTE: *This year's form is in six parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.*

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS.
